* Clinicals are facilitated through The Institute of Nursing Excellence or St. Petersburg College; and held at various healthcare facilities in Tampa Bay, Florida

PICC - Midline Qualification Program

**2012
Schedule**

OUR PICC - MIDLINE QUALIFICATION PROGRAM...

...provides a unique opportunity for the advanced I.V. Nurse to gain education and instructor supervised hands-on experience in the placement of PICC's and Midlines.

About the Program...

1st Step: Obtain Didactic Education

General Practice PICC Education

PICC 101: This day will comprehensively review all aspects of practice relating to PICC placement and Peripheral Midline placement. *Prerequisite: One-year venous access experience.*

Course Content Includes:

- * Patient Selection & Indications for PICC Placement or Midline placement
- * Anatomy & Physiology
- * PICC Insertion and Midline Insertion Techniques
- * PICC and Midline Site Care & Device Maintenance
- * PICC Insertion and Midline Insertion Complications
- * A Post Test

Save That PICC Management of PICC Complications

PICC 102: This session will discuss innovative management of potential problems and complications relating to the placement of PICC's and Midlines. *Prerequisite: PICC 101 or an approved equivalent.*

Course Content Includes:

- * PICC and Midline Complication Review
- * What to do with Malpositioned PICC Catheters
- * How to Clear Occluded PICC Catheters
- * Thru-the-Cannula & Over Wire PICC Exchanges
- * A Post Test

Advanced PICC Placement The MST Ultrasound Procedure

PICC 103: This session will discuss MST (Modified Seldinger Technique) PICC placement utilizing Ultrasound Technology. *Prerequisite: PICC 101 & 102 and/or approved equivalents.*

Course Content Includes:

- * The MST PICC Insertion Procedure
- * Principles of Ultrasound Technology for PICC Placement
- * Review of Portable Ultrasound Equipment
- * Potential MST PICC Insertion Complications
- * A Post Test

2nd Step: Obtain Hands-On Experience

Clinical Opportunities

If you do not have Precepting opportunities available at your facility; or if you wish to become PICC Qualified through Infusion Knowledge, Inc. we do offer hands-on PICC Clinicals, which will provide *precepted live insertions* in an acute care environment.

Our PICC insertion (Midline insertion) clinicals are scheduled upon request and are available in Tampa Bay, Florida. Nurses must meet all prerequisite criteria, as well as provide all required documentation.

Midline - Traditional PICC Clinical

This day will consist of a possibility of up to 3 one-on-one, instructor supervised, hands-on, bedside, Midline (or traditional PICC) insertions. *Prerequisite: PICC 101 & 102 (or approved equivalents) within the past 3 months; some restrictions may apply.*

MST - Ultrasound PICC Clinical

This 2-day clinical will consist of an observation - simulated skills day and a hands-on day with the possibility of up to 3 one-on-one, instructor supervised, Ultrasound PICC placements utilizing the MST (Modified Seldinger Technique). *Prerequisite: PICC 101, 102 & 103 within the past 6 months.*

Note: We cannot guarantee the availability of PICC insertions and/or Midline insertions on any given day. Refunds will only be given if no live sticks are attempted.

PICC Certification vs. PICC Qualification

Infusion Knowledge, Inc. offers PICC Qualification, as there is currently not a national certification program that exists for PICC insertion.

Upon completion of any PICC Education Program; a nurse would then be precepted by a PICC Qualified individual to document competency of the PICC insertion procedure.

PICC EDUCATION Now Available on DVD!
Go www.InfusionKnowledge.com for more information.

Program Goals

- ◆ Provide comprehensive PICC education (midline education) utilizing current standards of practice for PICC placement (and Midline placement), care and maintenance.
- ◆ Identify the most common complications and appropriate nursing interventions related to PICC and Midline devices.
- ◆ Provide advanced PICC education for MST Ultrasound PICC placement.
- ◆ Provide hands-on opportunities for precepted PICC insertions and/or Midline insertions.
- ◆ Provide a quality self study PICC education (Midline education) didactic program for the participant unable to attend a live seminar.

Levels of Qualification Available

General:

- ◆ Must complete PICC 101, PICC 102 and a Midline-Traditional PICC Clinical

Advanced:

- ◆ Must complete PICC 101, PICC 102, PICC 103 and an MST - Ultrasound PICC Clinical

Contact Hours

Contact Hours are approved for Nurses through Florida Board of Nursing Provider #50-998. A Certificate of Completion will be awarded at the completion of each class.

Successful completion includes attendance, class participation, and a minimum grade of 80% on all Post Tests.

Cancellation Policy

Infusion Knowledge, Inc. must receive all cancellations in writing no later than 14 days prior to a scheduled class date. Refunds are generally not issued after that date.

Note: We reserve the right to cancel classes if sufficient registrations are not received two weeks prior to a scheduled class date.
